EDUCATION

Ph.D. in Finance , <i>University of Cincinnati</i>	2024–2029 (expected)
M.S. in Finance , <i>Chinese University of Hong Kong, Shenzhen</i>	2022
BBA in Finance , <i>Chinese University of Hong Kong, Shenzhen</i>	2020

RESEARCH INTERESTS

Corporate Finance, ESG, Financial Analysts, Labor & Finance, Political Economy

WORKING PAPERS

1. “PE Lobbying and Fund Performance” (with Alexander Borisov and Da Li)

Abstract: This project studies the economic consequences of corporate political activity in private markets by examining whether General Partner (GP) lobbying affects Private Equity (PE) fund performance. It contrasts a value-enhancement hypothesis, under which lobbying generates returns by shaping favorable regulatory environments and mitigating frictions, with an agency-cost hypothesis, under which heavy lobbying reflects managerial hubris or inefficient capital allocation and drags on fund returns. The analysis is designed to assess which channel dominates in fund-level outcomes.

2. “Freedom of Speech and Market-Based Corporate Governance: Evidence from Forced CEO Turnover” (with Wenrui Zhang and Lu Wang)

Abstract: This project studies whether Anti-SLAPP laws strengthen market-based CEO discipline by improving the information environment used by boards and outside investors. Using staggered state adoption of Anti-SLAPP laws between 2007 and 2020 in a stacked difference-in-differences design, we document that forced CEO turnover becomes more sensitive to stock returns after adoption. The evidence supports an informational mechanism: lower legal exposure accelerates the revelation of negative firm-specific information, making poor stock performance a cleaner signal of CEO underperformance. This project is in the writing stage.

RESEARCH EXPERIENCE

Research Assistant , <i>Hong Kong Baptist University</i>	December 2023–August 2024
---	---------------------------

Constructed a comprehensive firm-level dataset on employee inflows and outflows by scraping and analyzing LinkedIn data for Professor Kangkang Fu’s research project.

Research Assistant , <i>Chinese University of Hong Kong</i>	August 2022–August 2023
--	-------------------------

Performed fuzzy matching and merged financial and demographic datasets, including I/B/E/S, voter registration files, patent examiner records, and executive profiles, for Professor Wenrui Zhang’s research project.

TEACHING EXPERIENCE

University of Cincinnati

Semester	Course	Enroll.	Role	Eval.
Fall 2024	FIN 3080 Business Finance	230	TA	–
Spring 2025	FIN 3080 Business Finance	500	TA	–
Summer 2025	FIN 4011 Investment	70	Instructor	8/8
Fall 2025	FIN 3080 Business Finance	57	Instructor	4.25/5

HONORS & AWARDS

Academic Excellence Scholarship, M.S. Program, Chinese University of Hong Kong (Shenzhen), 2022

Dean's List of Master Program, M.S. Program, Chinese University of Hong Kong (Shenzhen), 2022

Silver Entrance Scholarship, M.S. Program, Chinese University of Hong Kong (Shenzhen), 2020

Dean's List, Undergraduate Program, Chinese University of Hong Kong (Shenzhen), 2019

National Scholarship for Encouragement, Department of Education of Guangdong Province, 2018

National Scholarship for Encouragement, Department of Education of Guangdong Province, 2017
